

Aravali Exports

Stone catalogue

Natural stone from quarries across India, checked and crated in Jaipur. Every job is quoted: prices depend on size, finish, quantity and port. Natural stone varies in colour, veining and texture from block to block; photos and samples show the type, not the exact piece.

Before you specify

Lab values (water absorption, density, strength) are given only from test reports on the stone, with the standard named; ask for the report. Cutting, grinding or polishing natural stone releases respirable crystalline silica dust, which can harm the lungs: use water suppression or extraction and suitable respiratory protection. Country of origin: India. This catalogue is not a quotation or a contract.
